

**Attention
Teachers!**

The Consulate General of Japan and The Japan Information Center present the...

Japan Outreach Program

As part of our ongoing effort to increase awareness about Japan and its culture, we would like to take this opportunity to introduce our unique school visitation program, the Japan Outreach Program.

The Japan Outreach Program sends qualified bilingual/bicultural members of our JIC staff into school classrooms to introduce Japan and its culture. Supported by the Japan Information Center's extensive library and audio-visual resources, our staff can provide your students with a unique, interactive opportunity to learn about Japan.

The Japan Information Center also provides an audio-visual lending service, free informational materials on Japan and Japanese culture, and a library which contains more than 3,000 books, newspapers, magazines and government publications in English and Japanese.

If you have any questions concerning the Japan Outreach Program, please contact us at (415) 356-2460.
